Lois Saunders	BVSBC, Advisor
Suzanna Barucco	Kise Straw & Kolodner Inc. (KSK)

Distribution:

Dan Hill (for distribution to BVSBC Commissioners)
Consultant Team

Review of Public Meeting #1

The public meeting was reviewed and suggestions made for improving the second public meeting, scheduled for September:

- It would have been better to flip the boards to prevent attendees from doing the dot exercise prior to the start of the meeting
- At the next public meeting, there should be a wrap-up at the end of the meeting, to take questions and thank participants.
- The projected power point slides were believed to be too small for the scale of the room.
- Presentations should be reviewed prior to the meeting.
- Provide a role for Advisors at the next meeting.
- Avoid placing values on aspects of the Byway so that participants are not swayed in their thinking.
- As a follow up to the meeting, Sheri Evans Stanton volunteered to review the Vision Statement.

Agenda for June Commission Meeting

- Commissioners and KSK will be prepared to discuss primary and secondary intrinsic qualities for the BVSBC and a story for the Byway that ties the intrinsic qualities together. Drafts should be submitted to J Haedrich prior to the meeting.

Project Management

- SB distributed a draft table of contents for the CMP and reviewed the revised schedule which has the project ending in November 2009 to comply the funding schedule.
- These documents will be emailed to J. Haedrich for posting on the BVSBC website.

We believe the above to be an accurate representation of the discussion held at the meeting. If there are any corrections, additions or deletions to this memorandum please notify the writer.
